

K-LOVE is a radio station i listen to VERY often and i hope it will always remain on the air. If it were displaced by an LPFM broadcaster that provides other programming, i'd be devastated! My day is may decidedly better by K-LOVE and hearing their muscic, news and positive message helps me stay sane in an insane world!! Our local community is blessed to have the reception of this radio station.

It is this radio station that calms many people as they drive, work in offices and other locations AND K-LOVE is on air 24 hours to encourage and uplift those who may work and/or be up with family and other activities into the wee hours! In the interest of public broadcasting and keeping a voice for those of us Christians who need to be informed, i say please don't expand LPFM to expand so much that the current FM translator service which brings me K-LOVE is cancelled...THANKS for your time and sincere attention in this matter!!!
